

Construction

If you want to progress your knowledge and practical experience of management in the building trade, our university level courses are for you.

Previous learners have chosen to progress onto the second or third year of a related honours degree programme. Popular courses have included BSc Quantity Surveying, BEng Civil Engineering, BSc Building Surveying and BSc Construction Management.

Learners have also chosen to pursue more senior positions related to construction management, site engineering, building control and quantity surveying.

You will receive hands-on training through real-life simulated tasks in the College's industry-standard facilities. Not only will you increase your knowledge and understanding of building management, you will also gain skills within surveying, administration and contract practice.

Higher National Certificate in Building Studies

Allows you to take your knowledge and understanding of building management (including surveying, administration and contract practice) to an advanced level.

Part-time

Course Code A0157
Course Starts September
Course Length Two years
Location Freeman's Park Campus

This course would benefit junior technicians or experienced supervisors wanting to gain formal professional qualifications.

You should have a National Certificate in Building Studies or equivalent, or have relevant industrial experience.

This is a generic technician qualification giving a broad insight into the various construction management professions.

What do I need to start?

You will need GCSE English grade C or equivalent (without this you will be asked to complete a Literacy test), plus one of the following:

- Level 3 Edexcel National Diploma/NVQ/AVCE in a related subject.
- A2 qualification in a related subject
- a relevant Access to Higher Education course.

We welcome applications from learners with Advanced Apprenticeships and adult learners who do not match the standard entry requirements but who can demonstrate a willingness and commitment to studying this subject and who can evidence academic, professional or vocational experience in a related field.

International learners please see page 102.

How long is the course?

Two years, part-time.

How will I be assessed?

Assessment is continuous throughout the course.

What is the fee?

The fee is currently under evaluation and yet to be confirmed. Please call 0116 224 2240 for the latest fee information.

Who is the awarding body?

Edexcel.

What else do I need to know?

Visits will be offered where they are able to enrich your learning experience. Work experience is compulsory as part of this course.

What can I do next?

On completion of this course you can apply to progress onto a related honours degree programme at a University where you can often receive exemption for modules/work topics previously covered on the Higher National Certificate.

You can often progress into more senior positions related to construction management, site engineering, building control and quantity surveying.

How do I apply?

Please apply to Leicester College.
Call 0116 224 2240 for further information.

Higher National Certificate in Building Engineering Services

Allows you to develop your knowledge and understanding of Building Engineering Services.

Part-time

Course Code A8585
Course Starts September
Course Length Two Years
Location Freeman's Park Campus

This course would benefit practising qualified electricians or plumbers. You will be interviewed enabling direct entry where appropriate or direct.

The course involves core units undertaken by all Higher National Certificate learners, plus specialised units in Building Engineering Services. Optional units may be offered by the College to meet your needs.

What do I need to start?

You will need GCSE English grade C or equivalent (without this you will be asked to complete a Literacy test) plus one of the following:

- Level 3 Edexcel National Diploma/NVQ/AVCE in a related subject.
- A2 qualification in a related subject
- a relevant Access to Higher Education course
